📁 Portfolio

EDUCATION

- **B.comp (Hons.) in Computer Science – University of Sri Jayewardenepura, Sri Lanka (Reading)**

GPA: 3.89

- **G.C.E. Advance Level Examination 2022 Wesley College**

Combined Mathematics – B

Physics – B

ICT – B

Z-score: 1.5914

TECHNICAL SKILLS

- Languages: Python, Java, C++, JavaScript, SQL, R
- Web: HTML, CSS, JavaScript
- Tools: Git, VS Code, PowerPoint, Excel
- Database: MySQL

SOFT SKILLS

- Communication
- Leadership
- Time management
- Analytical
- Attention to detail

PROFILE

Computer Science undergraduate with skills in Java, Python, SQL, web development, and data analysis. Built full-stack, research, and analytics projects using Spring Boot, MySQL, JavaScript, Python and R. Seeking internship opportunities to apply technical skills in real-world environments.

PROJECTS

Evaluation of Student Performance in Online vs. Physical Learning Environments

- Led a five-member research team to analyze the impact of online vs. physical learning on DSA student performance.
- Collected and analyzed survey data from 81 students using descriptive statistics and pooled t-tests in R.
- Found physical learners achieved higher academic performance, while online learning improved flexibility and time management.
- Recommended a blended learning model combining classroom engagement with online flexibility.
- Authored the majority of the final report and coordinated team tasks as project leader.

Technologies: R, Excel, Statistical Analysis, Hypothesis Testing

EduAnalytics 2020 AL

- Developed an end-to-end data analytics project using Sri Lanka's 2020 A/L examination dataset to analyze student performance across streams, grades, gender, and syllabus types.
- Cleaned and preprocessed raw data using Python (Pandas, NumPy) by handling missing values, validating records, and standardizing categories.
- Performed exploratory data analysis (EDA) with Matplotlib and Seaborn to evaluate grade distributions, pass/fail trends, Z-score performance, and stream comparisons.
- Identified key insights, including highest average Z-scores in Physical Science and highest pass rates in the Art stream.
- Built an interactive dashboard using HTML, CSS, JavaScript, Chart.js, and PapaParse to visualize KPIs and performance trends dynamically.
- Exported the cleaned dataset as a reusable CSV for dashboard integration and future analysis.

Technologies: Python, Pandas, NumPy, Matplotlib, Seaborn, HTML, CSS, JavaScript, Chart.js, PapaParse

CERTIFICATIONS

Cisco Networking Academy

- Data Science Essentials with Python
- Data Analytics Essentials
- Introduction to Data Science
- Introduction to Cybersecurity

University of Moratuwa

- Python for Beginners
- Foundations of Project Management
- Web Design for Beginners

Sololearn

- Introduction to JS
- Introduction to Java
- Introduction to SQL

ACHIEVEMENTS

- Zain Vilcassim memorial prize for the best University entrant in ICT
- CODEFUSE 2.0 Hackathon - Winner

Ultrix Shoe Palace E-Commerce Platform

- Developed a full-stack e-commerce platform for premium footwear sales with separate customer and admin functionalities.
- Designed a responsive frontend using HTML, CSS, and JavaScript with modern UI and mobile-friendly layouts.
- Implemented customer features including product browsing, filtering, cart management, and order placement.
- Built an admin dashboard with full CRUD operations, real-time inventory updates, and product management tools.
- Developed RESTful backend APIs using Spring Boot and MySQL for products, users, carts, and order processing.
- Applied role-based access control to secure customer and admin access.
- Structured the system for future scalability with features such as payment integration, reviews, and wishlist support.

Technologies: HTML, CSS, JavaScript, Spring Boot, MySQL, REST APIs

EXTRACURRICULARS & VOLUNTEERING

Association of Computing Students (ACS) - USJ

- **Vice President (2025/2026):** Currently leading the executive board to drive departmental initiatives and student engagement.
- **Coordinating & Finance Head - TechXplore 1.0:** Managed the event budget and oversaw departmental coordination to ensure a successful technical exhibition.

Institute of Electrical and Electronic Engineers (IEEE) Student Branch - USJ

- **Marketing Team Head - Avurudu with IEEE 2025:** Led a team to develop and execute digital marketing strategies, increasing event visibility and attendance.
- **Standing Committee Member - Logistics (2024/2025):** Responsible for the planning and execution of equipment and venue logistics for major branch events.
- **Team Member (Logistics & HR):** Contributed to the successful execution of J'PURA EXPEDITION 2.0 and IEEE Day through resource management and volunteer coordination.

Science Union of Wesley College (SUWC)

- **Assistant Treasurer (2021/2022):** Managed union funds and financial records for science-related projects and seminars.
- **Organizing Committee - Erudita, Crossroads, Insurgence (2025):** Collaborated on the planning and onsite management of multiple large-scale college events.
